

# Phase 4<sup>TM</sup> Gel

Aim for the Green

## Softer, lighter and brand new.

The fight against pressure ulcers just got a new, more powerful weapon: Phase 4<sup>TM</sup> Gel support surfaces. They're the softer, lighter weight alternative to aid in the prevention of pressure sores. And their soft, supple micro-thin jacket moves just like your patients' skin, to eliminate shear forces. See for yourself and **save 20% on your first Phase 4 order.** Call **800-467-4944** or visit us at **www.impmedical.com** to try the alternative that's softer than a baby's bottom and tops at preventing pressure ulcers.
